

# **Anti-DENV NS3 Antibody [Clone 15-5]**

Catalog Number	LDG0006YA
Package	100 μg / Customized package

For full product information, images and publications, please visit our website.

# **Overview**

## **Description**

Dengue virus belongs to the family Flaviviridae, genus Flavivirus and consists of four distinct serotypes (DENV1 to 4). Dengue virus is transmitted by mosquitos majorly of species Aedes aegypti and Aedes Albopictus that widespread around tropics and subtropics. NS3 is a multi-functional enzyme, acting as a protease for polyprotein processing. The NS3 proteins are essential for viral replication and infectivity and important targets for anti-dengue drug design.

### **Product Note**

Recommended dilution factor:

ELISA: 1:5000-20000 WB: 1:1000-5000 IFA: 1:500-1000

FACS: Assay dependent

Note: Working dilution for specific application should be determined by the investigator to obtain the best conditions.

# Host Clonality Mouse Monoclonal Isotype Clone Name IgG2b clone 15-5

Tainan Headquarter

**Innovation & Research Center** 

**CLD Center** 

**Immunogen** 

Dengue virus NS3

**Application** 

ELISA, WB, IFA, FACS

Concentration

1 mg/mL

**Specificity** 

NS3

Reactivity

Dengue virus

Conjugation

Unconjugated

**Storage Buffer** 

Phosphate Buffered Saline containing 0.03% ProClin 300, pH 7.4.

**Form** 

Liquid

# Instruction

## **Shipping**

The product is shipped with polar packs. Upon receipt, store it immediately at -20°C or lower for long term storage.

## **Stability & Storage**

This product is stable after storage at:

- 2-8°C for 2 weeks under sterile conditions from date of receipt.
- -20°C or -80°C for 12 months under sterile conditions from date of receipt.

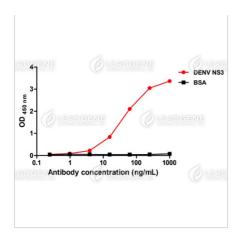

Avoid repeated freeze/thaw cycles.

Suggestion: Divide antibody into several vials.

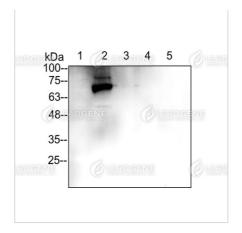

Keep only vials for usage at 2-8°C.
