

# Mycoplasma pneumoniae P1 Protein, His tag, E. coli

 $5 \mu g / 20 \mu g / 100 \mu g / Customized package$ 

Catalog Number LDG025POE

For full product information, images and publications, please visit our website.

## **Specifications**

**Package** 

**Species of Origin** 

Mycoplasma pneumoniae

**Affinity Tag** 

His Tag (C-term)

**Purity** 

>95% as determined by SDS-PAGE analysis.

**Endotoxin Level** 

 $<\!0.1$  EU per 1  $\mu g$  of the protein by the LAL method.

**Expression System** 

Escherichia coli

**Storage Buffer** 

Lyophilized from a 0.2  $\mu m$  filtered solution of PBS, pH 7.4

Molecular weight

The protein has a calculated MW of 25.39 kDa. The protein migrates as 35 kDa under reducing condition (SDS-PAGE analysis).

**Form** 

Lyophilized

### **Background**

#### **Background**

The Mycoplasma pneumoniae P1 protein is a key adhesin involved in the attachment of the bacterium to respiratory epithelial cells, facilitating infection. This protein plays a crucial role in the pathogenesis of Mycoplasma pneumoniae respiratory infections, such as bronchitis and pneumonia. P1 protein mediates interactions between the bacterium and host cells, contributing to colonization and evasion of host immune responses. Understanding the function and structure of P1 protein is essential for developing targeted therapies and vaccines against Mycoplasma pneumoniae infections.

#### **Synonyms**

Attachment protein, Cytadhesin P1

#### **Uniprot ID**

P11311

#### **Sequence Note**

Ser1287-Gln1518

#### Instruction

#### Reconstitution

It is recommended to reconstitute the lyophilized protein in sterile  $H_2O$  to a concentration not less than 200  $\mu$ g/mL and incubate the stock solution for at least 20 min to ensure sufficient redissolved.

#### Stability & Storage

This product is stable after storage at:

- -20°C for 12 months in lyophilized state from date of receipt.
- -20°C or -80°C for 1 month under sterile conditions after reconstitution.

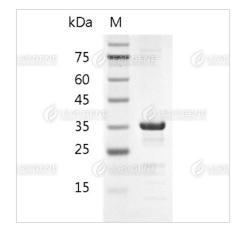

Avoid repeated freeze/thaw cycles.

#### **Shipping**

The product is shipped with polar packs. Upon receipt, store it immediately at -20°C or lower for long term storage.

# Image

SDS-PAGE analysis of recombinant P1 protein.
