Overview

Description

Leadgene Goat anti-Human IgG, Fc Fragment is purified from goat antiserum by immunoaffinity chromatography and conjugated with high-activity HRP. Minimal cross-reactivity with other isotypes or species.

Product Note

Recommended dilution factor:

ELISA: 1:5000-25000

IHC: 1:500-2500

WB: 1:5000-25000

Note: Working dilution for specific application should be determined by the investigator to obtain the best conditions.

Specifications

Host

Goat

Immunogen

Gamma immunoglobulin Fc region

Application

ELISA, IHC, WB

Clonality

Polyclonal

Reactivity

Human

Conjugation

HRP

Buffer

Phosphate Buffered Saline containing 1% BSA, 0.03% ProClin 300 and 10% glycerol, pH 7.4.

Form

Liquid

Specificity

IgG, Fc Fragment

Instruction**Shipping**

The product is shipped with polar packs. Upon receipt, store it immediately at -20°C or lower for long term storage.

Stability & Storage

This product is stable after storage at:

- 2-8°C for 2 weeks under sterile conditions from date of receipt.
- -20°C or -80°C for 12 months under sterile conditions from date of receipt.

Avoid repeated freeze/thaw cycles and protect from light.

Suggestion: Divide antibody into several vials. Keep only vials for usage at 2-8°C.

Disclaimer : For Research Use or Further Manufacturing Only.
