

Anti-SARS-CoV & CoV-2 NP IgM Antibody

Catalog Number LDG0077YA

Package 50 µg / Customized package

For full product information, images and publications, please visit [our website](#).

Overview

Description

Human anti-SARS-CoV & CoV-2 NP antibody recognize human SARS Coronavirus Nucleocapsid protein (NP). Coronavirus NP localize to the cytoplasm and the nucleolus in both Virus-like particle (VLP) infected primary cells and in cells transfected with NP plasmid. NP has abundant expression in coronavirus and is a highly immunogenic phosphoprotein. NP is also conserved in sequence. Due to these characteristic above, the NP is an ideal marker for diagnosis.

Product Note

Recommended dilution factor:

ELISA: 1:5000-20000

WB: Assay dependent

IFA: Assay dependent

FACS: Assay dependent

Note: Working dilution for specific application should be determined by the investigator to obtain the best conditions.

Specifications

Clonality

Recombinant Human IgM

Isotype

IgM

Reactivity

SARS-CoV & CoV-2

Application

ELISA, WB, IFA

Conjugation

Unconjugated

Buffer

Phosphate Buffered Saline, pH 7.4.

Form

Liquid

Concentration

Lot-dependent, please refer to product label.

Specificity

Nucleocapsid protein

Instruction
Shipping

The product is shipped with polar packs. Upon receipt, store it immediately at 2-8°C for long term storage.

Stability & Storage

This product is stable after storage at:

- 2-8°C for 6 months under sterile conditions from date of receipt.

Briefly centrifuge vials before opening.
